

“Beezwax delivers.

Working together has been great. Our datasharing with a key partner is now dramatically more efficient, resulting in higher safety and better service for our customers.”

—Joe Valdez, *Caltrans*

We
grow
powerful
solutions.

Powerful web and database solutions

Beezwax specializes in building custom solutions for virtually any use. We manage complex knowledge, capture business logic, streamline processes, and visualize information. Whatever you need, Beezwax can make it happen.

Over three hundred satisfied clients

Beezwax clients come in all sizes: small business, non-profit, government, and enterprise. And our engineers are among the best — they regularly speak at major industry events and are sought-after instructors.

Rich Internet applications

Beezwax creates robust and elegant Internet applications for public or internal use, with solid, best-of-breed technologies: Ruby on Rails, LAMP, AJAX, and Flash.

World-renowned FileMaker development

Beezwax is a Platinum Member of the FileMaker Business Alliance. Besides being a recognized leader in providing FileMaker custom solutions, Beezwax also distributes widely-used tools and components for FileMaker developers around the world. If you need FileMaker work, Beezwax is as good as it gets.

A human touch

What sets Beezwax apart is that we're people people. You see this in our solutions, tailored for the people who use them — and in how we work with our clients, who consistently tell us our engineers are friendly and nice. Nice is important.

Many technologies, one answer

We can direct technology strategy, architect specifications, audit code written by other developers, and conduct in-house training. We build new systems or optimize your existing ones. We find the solution that meets your needs and fits your budget.

You need to make things happen, improve the bottom line, and constantly innovate, while doing more with less. You need a technology partner that reduces your risk and increases your opportunity.

You're in the right place.

Find out what Beezwax can build for you. **Contact us today.**
